Governance and Tenant Services

Grŵp Cynefin has self-reported significant risks and concerns in relation to tenant services and governance, specifically in relation to assurance on compliance including statutory safety and the Welsh Housing Quality Standard.

Regulatory intervention is required to ensure Grŵp Cynefin addresses the identified concerns with the regulatory standards listed below. The improvements required are also listed. The Regulator is working closely with the Association to develop/agree an improvement plan which will include independent reviews of its leadership and governance at Executive and Board level, as well as immediate improvements to statutory compliance.

The Association will be expected to provide a formal indication of its commitment to the agreed improvement plan and its implementation.

Financial Viability

The Association meets the financial viability tests. However, increased regulatory oversight will be required as the financial implications of the improvement programme are assessed.

Note – This is an exceptions report. Where there are regulatory concerns, the regulatory standard along with the improvements required will be listed. If no regulatory standards are listed, there are no significant regulatory concerns at this time.
